

Financial Assistance Policy and Guidelines

(updated January 2021)

Trinity Academy offers financial assistance to families on the basis of demonstrated financial need. Admission decisions are *independent* of the financial assistance process.

Financial Assistance Policy

Financial assistance decisions are determined by the Financial Assistance Committee based on the assessment of FACTS Grant & Aid (FACTS), utilizing the information provided by the family. All information is confidential, and every effort is made to meet demonstrated need.

- Trinity does not discriminate in the administration of its financial assistance policies due to race, color, religion, national or ethnic origin, gender or age.
- Trinity maintains confidentiality and expects the same of parents and guardians. A breach of confidentiality may result in the withdrawal of a financial assistance award.
- Trinity believes the family bears the primary responsibility for funding their child's education; therefore, **awards are generally not greater than 50% of the cost of tuition.**
- Trinity's analysis is based on the expectation that both parents are employed; therefore, if one parent is not working as a matter of choice, an annual amount of \$7,500 will be added to income calculations. If a parent is disabled or caring for a child under the age of five, this policy may be waived.
- FACTS takes into consideration discretionary spending (e.g., second homes) during the review.
- If a parent is self-employed, owns a business and does not have income or draw a salary, Trinity may request further information.
- It is Trinity's expectation that parents requesting assistance file income tax returns in a *timely manner*. Taxes must be completed, signed, filed with the IRS in accordance with IRS guidelines, and copies provided to FACTS before applications are considered.
- In the event of divorce, separation, remarriage, or unmarried parents:
 - Assets of both parents are considered.
 - Trinity requires each parent to complete a separate financial assistance application.
 - If either parent has remarried, assets and income of the stepparent will also be considered.
 - Trinity is not bound by separation or divorce agreements or by one parent's unwillingness to pay.

In order for a financial assistance application to be reviewed by the Committee:

- Tuition payments must be current.
- There can be no past due balances on any account, including incidental billings and Extended Learning payments.
- Any financial assistance application from a PRIOR YEAR must be in a "VERIFIED" status according to FACTS Grant & Aid.

Financial assistance funds are limited, and Trinity is under no obligation to provide funding for late or incomplete applications from currently enrolled students.

Applying for Financial Assistance

Trinity uses FACTS Grant & Aid (FACTS) for the collection and initial evaluation of financial data. See <https://online.factsmgmt.com/grant-aid/inst/3RMR8/landing-page>.

Families applying for assistance must adhere to all stated deadlines and policies of Trinity Academy and FACTS and must reapply each year. ***It is the responsibility of the family*** to ensure their application is complete and in a “VERIFIED” status with FACTS by the stated deadline.

If a family believes that the financial assistance awarded is insufficient to meet its needs, they may file a written appeal to the Financial Assistance Committee. Appeals must include information that was not previously available or clarification of an item or an extenuating circumstance. Appeal forms are available in the Admissions Office.

Should information submitted fail to verify financial need or indicate that the award requires adjustment, an enrollment contract may be voided or reissued at the sole discretion of the academy.
